

# TEA PARTY CALIFORNIA CAUCUS

## Welcome to the California Republican Party's Fall 2013 Convention!

As an attendee to the convention, we invite you to learn more about the Tea Party California Caucus (TPCC), the first-ever effort to unify Tea Partiers and Conservatives within the CRP!

### Who we are:

Tea Party supporters are individuals, groups and affiliates from across the State of California who are dedicated to restoring and protecting our core values of **Constitutionally Limited Government, Fiscal Responsibility and Free Markets** as the foundation to the California Republican Party. We will caucus as Tea Partiers at this and future conventions, working to implement resolutions and policies that will defend these core values within the Party.

### Why we are organizing a Caucus:

Over the last four years, Tea Party groups have been very active at the grassroots level. Many Tea Partiers have already been elected to County Central Committees of the CRP across the state. **At least at the county level, this activity is bringing a return to constitutional principles and energizing our Republican grassroots!** However we need to move upward and promote our values at the statewide level - organizing ourselves within the CRP itself. This type of organization, known as caucusing, gets done at the statewide CRP conventions that take place twice a year.

As a caucus we can organize and hold meetings at these conventions and bring Tea Partiers and fellow conservatives together in one place to strategize for our goals. We can also invite guest speakers and hold informative meetings that can appeal to other Republican members at the convention. Most importantly, **we can draft and promote resolutions and promote candidates for Party office that can direct the vision of the CRP for years to come.**

### The Bottom Line:

The Republican Party remains the best home for the Tea Party and Conservative platform and we are committed to the work necessary to protect the values that made it great. But we must work together if we are going to succeed. **We hope you will join with us in this important effort!**

**If you would like more information, visit our booth, or call us directly!**
